MARKET CLOSED STRONG.

New York, July 22.—Prices on the stock exchange ross and fell within an stock exchange rose and fell within an extremely small radius during the greater part of today's session. Sentiment in speculative circles was visibly heartened, however, by the better aspects of the railroad labor situation and maintenance of comparatively easy money rates.

There was a fairly successful demonstration against the shorts in the last hour, when quotations rose to highest averages of the day under the impetus of a demand for oils, sieels, rails and various miscellaneous specialties.

The sudden advance of prices followed publication of excerpts of Senator Harding's speech of acceptance. The candidate's references to the country's transportation needs met with especial satisfaction. Sales of stocks amounted to 130,000 shares.

Industrial conditions brightened as a result of the railroad wage increase and advices from the more important steel benters indicated increased production-based on the belief that many new contracts for equipment are pending.

Reports of 'saturation' in the steel industry, which have long been current in the financial district met with denials in authoritative quarters but the motor group as a whole made indifferent response to these assurances. Sugar shares were under further pressure, but railied on the firmer tone of allied food saues.

British exchange continued to move in layor of this market, the French, Bel-tian and Italian rates also reacting against their home markets. The Bank of England made further recovery from its recent low liability reserves and added to its enormous holdings of bul-

sond market was the further rise of Virtinia deferred 6's. Most domestic is rues, including Liberties, were irregular fotal sales, par value, \$8,125,000. Old
